

## Computer Lab Assignment 10/14/11

Using 'google presenter' create a slide for each of the following topics:

- What is 'Cosmology'?
- Describe how the Big Bang Theory accounts for the formation of the universe.
- What is the age of the Universe?
- What are galaxies?
- Describe the Milky Way galaxy
- How did our Solar System form
- Where is our Solar System located in the Milky Way?
- What is the 'cosmological redshift'?
- What is 'Cosmic Background Radiation'?

For each slide write a brief description of the topic and include a picture/diagram related to the topic.

If you do not finish in class due by 6:00pm 10/16/11
